

## WaiterPAD POS System Demonstration

TriniTEQ, formerly known as nuSable POS, cordially invites you and your fellow restaurateurs to attend a demonstration of our WaiterPAD POS System. There is absolutely no commitment nor pressure to purchase anything. Our goal is simply to give you an opportunity to see firsthand how upgrading your aging Sable POS System can improve your operations and profitability. Some of the features of our new system include:

- PCI DSS compliance, including Pay at the Table
- Proven ROI, increase your sales & flow-through
- Modern full color touch-screen IBM terminals

Complimentary beverages and appetizers will be served. If you know any other restaurant owners / operators that would like to attend please have them contact us for an invitation at 510-547-9124 x 318.
